WEDNESDAY, JULY 20, 1892

SPECIAL TELEGRAM.

TO

STANDARD.

Bahia, 19th.

The U. S. cruiser Bennington arrived here this morning, and knows nothing whatever of the Brazilian crew.

London, 19th.—The Irish Home Ruler, in spite of their dissensions, have been re-elected to almost all the seats they previously held.

It is announced that the Salisbury Cabinet will resign at once.

Cook, the well-known organizer of foreign travelling trips, is dead.

St. Petersburg, 19th.—The cholera is increasing in the provinces already infested, and has spread to Koutan, Berdiansk, and some points on the Sea of Azov.

Nevertheless, thanks to the precautions taken, it has not yet reached the Northern provinces.

Madrid, 19th.—The Cortes have been adjourned till the 24th.

The Liberals having refused to accept their dissolution, or sanction the economic measures of the Government.

The discontent of the public with the Cánovas Cabinet is increasing, and the Opposition papers are loudly denouncing the Government.

Preparations are being made for the Queen Regent's trip to Havana.

Bucharest, 19th.—Cholera has appeared in Roumania. In Budaoh and Kustendie some fatal cases are reported.

(To the "Prensa.")

London, 18th.—Up to noon today the result of the elections is:

Conservatives... 267

Unionists... 44

Liberals... 311

McCarthyites... 263

Parnellites... 67

There is a rumor that some capitalists have subscribed £10,000 for the Gladstone election expenses, on condition that the Right Hon. Mr. Balfour should be elected.

A Cabinet Council has been summoned for Thursday next.

An awful volcanic eruption is reported on Sagur Island, near the Philippines. Twelve thousand people (nearly the whole population) perished.

In a speech at Liswell, Mr. Sexton said that the Irish members would bring from their former enemies a Home Rule Bill to satisfy Irish aspirations.

Four people in a boat were drowned at the Dublin Regatta.

Paris, 18th.—Ten deaths in the suburbs from cholera have been registered today.

Barron County has been named as one of the Belling Sea arbitrators.

Berlin, 18th.—Bismarck's agents are beginning to acknowledge that their attacks on the Emperor and the Government have not had the effect which they expected.

ANALYSIS OF THE BUDGET.

We give at foot the Budget presented by Minister Hansen to Congress. The message is much too long, but the items are set out clearly enough.

Important a matter, the mere translation of the message having taken us 7 hours.

We doubt that the value of the paper-dollar will improve so much as His Excellency forecasts, namely a fall of the premium to 175 per cent, and as the Budget is based on this assumption we decline to admit the expected surplus of 16 millions currency. We fear that the expenditure will be very much increased, and that the deficit will be \$75,000,000 currency, in view of the expenditure as stated by Pres. Pellegrini in 1891. In fact the only main point on which we agree with the Minister is that the revenue will probably reach \$91,000,000 currency.

THE BUDGET FOR 1893.

MESSAGE TO CONGRESS.

Hon. Senators and Deputies.

The economic situation of the country improves visibly as regards commerce and industry, and we are still face to face with the currency question and our national finances are in an artificial atmosphere since we have been obliged to suspend the service of the foreign debt. In drawing up, therefore, the budget for 1893 we are bound to prepare the way for such arrangements as the economic power of the country will permit.

We expect the revenue to reach \$24,400,000 gold and \$23,800,000 currency, the former sum to be derived from the custom-house, the latter from internal revenue. We anticipate that gold will range from 150 to 200 per cent premium, and therefore calculate exchange at \$275 currency to \$100 gold.

THE BUDGET FOR 1893.

MESSAGE TO CONGRESS.

Hon. Senators and Deputies.

The economic situation of the country improves visibly as regards commerce and industry, and we are still face to face with the currency question and our national finances are in an artificial atmosphere since we have been obliged to suspend the service of the foreign debt. In drawing up, therefore, the budget for 1893 we are bound to prepare the way for such arrangements as the economic power of the country will permit.

We expect the revenue to reach \$24,400,000 gold and \$23,800,000 currency, the former sum to be derived from the custom-house, the latter from internal revenue. We anticipate that gold will range from 150 to 200 per cent premium, and therefore calculate exchange at \$275 currency to \$100 gold.

THE BUDGET FOR 1893.

MESSAGE TO CONGRESS.

Hon. Senators and Deputies.

The economic situation of the country improves visibly as regards commerce and industry, and we are still face to face with the currency question and our national finances are in an artificial atmosphere since we have been obliged to suspend the service of the foreign debt. In drawing up, therefore, the budget for 1893 we are bound to prepare the way for such arrangements as the economic power of the country will permit.

The expenditure is estimated at 11,050,000 gold and \$44,658,000 currency, leaving a surplus of 16,224,000 dollars currency, to be applied towards the burning of paper money or general improvement of the economical situation.

We estimate 20,000,000 gold from import duties, say 30 per cent on imported merchandise, based on the fact that these duties for the half-year ending June 30th, 1892 have produced 10,227,000 gold.

We propose to abolish extra duties, to alter some items in the tariff, and to introduce various specific duties instead of ad valorem ones, which left room for dispute. We mean thus to simplify the tariff, instead of the present system, which imposes three distinct duties on some articles.

The reductions which we propose are—

	Amount
Alcohol, 5 cents per litre	\$50,000
Wine, one cent	\$20,000
Tobacco	190,000
Perfumery extra duties	55,000
General extra duties	200,000
Total reductions	\$775,000

We find that the annual consumption of wine averages 145 million litres of 27,500,000 gallons, say 3 gallons per inhabitant, while the production does not reach 12,000,000 gallons. We therefore reduce the duty to 30 cents gold, which is equivalent to 80 per cent.

That of alcohol, as wine is so necessary as an article of food.

Heretofore the multiple taxes on cigars have been so heavy that they have ceased to be imported. In future we will pay 25 gold per kilo of inferior, and 45 of superior, class, and this reform, we expect, will give us an increase of 570,000 gold in the revenue.

We propose specific duties on rice and yerba-mate, which will raise the former about 4 per cent ad valorem, and increase the yerba-mate about two per cent. So many controversies arose about cotton-goods that a uniform duty is now put on all.

Banks, fairs, wine, ploughs, drains, pipes etc., which were taxed 10 per cent now pay 5 per cent on their value, as well as raw material and other articles for new industries. In fact it is found necessary to cut down the free-list.

These articles admitted free now reach 33 per cent, whereas before 1891 they were barely 15 per cent, of the total imports. The difference means a loss of 1,250,000 gold yearly to the Treasury.

We propose, moreover, that Congress shall give the Government a right to levy minimum and maximum duties, to enable us to combat hostile tariffs on the part of various foreign countries: this right is of differential duties is found to be indispensable.

We estimate the value of exports at 75,000,000 gold (\$15,000,000 sterling), the duties on which will be 3,000,000 gold, since the export duties for the half-year ending June 30th have produced 1,612,000 gold. We propose no change in export-duties.

We mean, however, to raise War-house duties 50 per cent, so as to produce 550,000 gold. This tax in the last half-year yielded no more than 214,000 gold, while the expenditure under this head was 220,000 gold without counting the interest on buildings and machinery, say 300,000 gold in addition. Port and warehouse duties are estimated at 2,000,000 gold, having produced 278,000 gold in the half-year ending June.

We propose to reduce dock-duties on coasting-craft and river steamers, in order to promote a trade for naval purposes for the country.

We propose no alteration in light-duties.

As regards stamps, property-tax and trade licences they remain practically the same, and the product is estimated as this year, namely 6,800,000 currency.

The public debt and telegraphs produce at present 220,000 currency per month, say 2,640,000 per annum, but we propose to raise rates until they produce 3,000,000, say 40 per cent more than now. The department has at present a deficit of 1,500,000 gold, 14,000,000 currency, since we have to pay on letters to or from Europe nearly double what we charge in our Correo.

In other countries the Post-office leaves a profit in the Peninsula of nearly 10 per cent in Germany, 24 per cent in France, 22 per cent in Italy, 50 per cent in G. Britain, and 60 per cent in U. States. We, therefore, propose an increase of 50 per cent in postal charges, and if the Berne Postal League make opposition we will withdraw from the League.

As regards the Waterworks, etc., it is urgent to complete them. They are calculated to produce 4,000,000 sterling yearly, but do not yet give 400,000, while the expenses are nearly as great as if they were completed. In the present estimates this tax figures only for 500,000 currency (\$25,000 sterling).

The development of such local products as wine, sugar, alcohol and beer has caused an annual loss of 10,000,000 gold to the revenue, in the branch of import-duties, and as the price of such articles depends on that of imports of the same kind, the Government has been obliged to give out yearly among persons interested in wine-growing, sugar, alcohol and beer. Some insignificant duties on these home-produced articles have been charged, and it is time to increase them.

We propose to raise the duty on native alcohol from 81 to 20 cents per litre, which will give us 5,600,000 currency.

We find that the excise from alcoholic liquors for the half-year ending June 30th last year, at 1,000,000 gold, has only produced 220,000 currency, owing to the fact that most of the distillers evade payment. These distillers, moreover, are a terrible evil to public health, poisoning the public with the vilest decoctions under the most enticing names.

We propose a tax of 22 cents currency per gallon on Argentine wines, and as the production reaches 11,000,000 gallons this tax will produce 2,420,000 currency (say \$170,000 sterling). This is a very trifling tax, seeing that the duty on imported wine is equal to \$10 cents currency per gallon, or 5 times as much as the above. If we add 11,000,000 gallons were wine imported the duty on them would be 12,000,000 currency or 4,600,000 gold.

We propose to raise the beer-duty to 2 cents a litre on small and 4 cents on double beer so as to produce 500,000 currency.

Also to impose 508 currency a ton on sugar, which will give 2,000,000 on an estimated crop of 40,000 tons. This is reasonable, seeing that some of the sugar men are making 50 per cent profit, and the Government considers that they ought to pay in the same way as wine-growers.

The Treasury loses 3,500,000 gold per annum in import-duties owing to the decline of imported sugar.

We propose to tax wooden matches half a cent per box, and then the match tax will produce \$1,000,000 currency.

As regards the 7 per cent tax on joint-stock companies we propose to except Life Insurance.

Expenditure.

The department of interior is set down at \$13,820,000 currency, an increase of \$3,000,000 on the budget for the current year. In Foreign Affairs the only increase is \$1,400,000, owing to the increase of \$1,400,000 on the budget for the current year.

The Department of War stands for 11,000,000 currency, being an increase of 6,000,000. That of Marine has a new item of 600,000 for repairs and maintenance of war vessels.

As regards the service of Public Debt (this calls for 7,800,000 gold, besides 300,000 gold for amortization of the debt), we find that by the end of 1893 the total emission of Moratoria bonds will not reach \$15,000,000 sterling, as contemplated, but only \$8,500,000 or \$4,840,000 gold.

There is an item of 1,874,000 gold for coupons of guaranteed bonds, and as the Government has taken over the bonds of the Provincial Bank of Buenos Ayres, and of that of Cordoba the total will go to 5,500,000 gold.

The guarantee on Frozen Meat factories has not called for any expenditure up to the present, and may be considered nominal. We have set aside 2,500,000 gold (say 250,000 currency) for contracts in Europe, which we hope will be sufficient.

In conclusion the Government expects to have a large surplus at the end of 1893, to be devoted to burning paper-money or other like useful purpose. It is probable, moreover, that we shall get something out of the liquidation of the National Bank, but we prefer not to count on any resources that might be considered problematical.

PELLEGRINI, Emilio Hansen

(Note.—Gold items are reduced to currency on the Minister's basis of 275 per \$100 gold.)

MAILS FROM CHILE

Valparaiso, 29th June.

We deeply regret to announce the death of Don F. Wagnon, a well-known philanthropist. The deceased gentleman was a son of the late Joshua Wagnon, Esq., who did so much for the advancement of Chile in general and Valparaiso in particular.

The funeral of the late Don Manuel Antonio Matta, which took place on Saturday, was one of the most numerous attended that has ever been witnessed in Santiago. Long before the hour appointed for the procession to start—2 p.m.—thousands of persons of all ranks and conditions had collected together in and near the Plaza Intendencia.

ROYAL MAIL

STEAM PACKET COMP.

The following are the proposed sailings

of this company's steamers:

TANAR, Capt. Latham July 20

For Santos, Rio Janeiro, Bahia, Pernam-

buco, Rio de Janeiro, Bahia, Pernambuco

and Antwerp.

Accelerated Service.

MAGDALENA Capt. H. C. Ryan Aug. 3

For Rio de Janeiro, Bahia, Pernambuco,

St. Vincent, Lisbon, Vigo, Southampton

and Antwerp.

Special attention is drawn to the

accelerated service by which passengers are

delivered at Southampton within 22 days of

leaving the River Plate.

All these steamers are provided with the

best accommodation for carrying passen-

The French steamer Aquiline en route from Montevideo to this port arrived yesterday at 10:30 a.m. and left for La Plata on a hard "C" bottom and is in a precarious condition. She is a large cargo ship, carrying a heavy cargo. Although arriving from Santos she comes with free freight. Part of her cargo is being discharged to get her off; supplies have been sent from La Plata for her numerous passengers. She is being managed to get off to-day at two o'clock.

The British packet Tamar and the Italian liner Montevideo leave to-morrow for Europe.

The Pacific steamer Lusitania arrived at Montevideo from Rio de Janeiro and left in the afternoon for the West Coast.

The Platense steamer Mercurio has been taken to the South Atlantic. An appeal has been made to the National Government to run the transport Villa Rio between the south and northern ports in the days of old when Colonel Spurr opened up the South Atlantic General Route to Rio Negro expedition.

The gold market ruled very weak at the second ring; silver at 102.50, 103.00, 103.50, 104.00, 104.50, 105.00, 105.50, 106.00, 106.50, 107.00, 107.50, 108.00, 108.50, 109.00, 109.50, 110.00, 110.50, 111.00, 111.50, 112.00, 112.50, 113.00, 113.50, 114.00, 114.50, 115.00, 115.50, 116.00, 116.50, 117.00, 117.50, 118.00, 118.50, 119.00, 119.50, 120.00, 120.50, 121.00, 121.50, 122.00, 122.50, 123.00,
